

Transitioning to online learning in languages

Suggestions for organization

@grahnforlang

- Explain how and when students can contact/communicate with you
- If possible, turn the video on so the students can see you
- Explain expectations for student participation
- Explain how students' attendance will be handled
- Explain how lessons will work
- Explain how students access assignments and offer choices
- Model netiquette: posting and responding in discussions, etc.
- Explain how students will receive notifications, announcements, reminders, and updates
- Teach students how to respond orally and in writing on the platform
- Model how students will do pair and small group work (break out rooms, etc.)
- Have a repository/folder of resources students can easily access
 - Course/unit outline, syllabus
 - Rubrics
 - Expressions lists

- Lesson presentations

- Teach students how to submit work

- Show students where they will store their work (online portfolio)

- Explain when and where student grades will be posted

- Explain how students will receive feedback on their work
